## Auckland Hospital, Gynaecology ward Auckland

### Product

Palettone Lunar Landscape,  
Polysafe Vogue Ultra Woodland Grey,  
Forest FX American Oak and  
Polyflor Classic Mystique Satinwood

A recent refurb of the Auckland Hospital Gynaecology Ward included the upliftment of the existing carpet throughout the ward, corridors, staff base and doorways to patient rooms.

The carpet was replaced with Polyflor's new Palettone PUR in colour Lunar Landscape 8637. To compliment these areas, Polysafe Vogue Ultra in Woodland Grey 4770 was installed in wet areas such as toilets and under sinks in the corridors. The combination of these 2 products work really well in these spaces.

Palettone is a 2mm sheet product designed for healthcare, retail, leisure and education interiors available in a palette of 50 colours. Polysafe Vogue Ultra is designed for heavy traffic areas where risks of water spillage is high.

Forest FX in American Oak 3380 was paired with Classic Mystique in colour Satinwood 1370 for the Whanau rooms and the Head of department office, creating a warm all over feeling.

Forest FX, Polyflor's Heterogenous sheet vinyl is designed for heavy traffic areas such as retail, healthcare, hospitality and education facilities. Available in 18 shades with a 0.7mm wear layer. Classic Mystique, an attractive, high performance, heavy duty homogenous floorcovering designed for commercial interiors is available in 24 shades on 20m rolls.
